COVERS

Because Your Safety Is Our Priority.

Every Aqua Brella™ Safety Pool Cover by Jersey Cover Corp is engineered and designed to be the safest and strongest cover possible. While some of the competitors use a single strap system on their covers, Aqua Brella™ Safety Covers are made with double strapping throughout the cover. The double strapping guarantees almost twice the break strength compared to the single strap. With our solid brass anchoring system and stainless steel springs, our goal is to make the safest cover possible. Our covers meet and exceed all ASTM standards, giving your family and your pool the Aqua Brella™ Blanket of Protection.

DOUBLE STRAPPING

Two independent testing firms have tested our double strapping. Compared to single strapping used by some "other" cover manufacturers, our double strapping is nearly twice as strong. We use double strapping on our entire cover, not just the perimeter edge, which provides you with extra strength and safety.

STRAP SPACING

Our strap spacing is much closer than some "other" cover manufacturers. With closer spacing you cannot lift the edge of the pool cover to gain access into the swimming pool.

MADE IN THE USA • CUSTOM SHAPES ARE OUR SPECIALTY.

Aqua-BrellaTM

Safety Pool Covers

ECONOMESH:

Standard of the industry grade of economy mesh material. Same fit and quality as higher grade mesh. This material is designed to allow water to pass through for drainage and safety and keeps debris out, making maintenance easy. Available in green/black construction.

ENDURAMESH:

A tighter woven mesh allows water to pass through it while keeping large particles of dirt and debris out of your swimming pool making opening and closing your pool an easy task. Available in green/black construction.

EXTREMESH[®]*

A tightly woven mesh that blocks nearly 100% of the sun's rays preventing algae growth. Rain and melting snow pass right through for easy drainage and safety. Durability and strength will protect your family and investment. Available in green/black construction only.

LIGHT-WEIGHT SOLID:

Lighter than our Heavy Duty Solid cover, this safety cover allows for easy installation and removal. Available with or without mesh drain(s) panels. Cover without mesh drain panels blocks 100% of sunlight and is sold with an automatic pump. To meet ASTM standards, the pump must be used at all times. Available in green only.

HEAVY-DUTY SOLID:

Available with or without mesh drain(s) panels. Cover without mesh drain panels blocks 100% of sunlight and is sold with an automatic pump. To meet ASTM standards, the pump must be used at all times. Available in green or blue.

* U.S. Patent No. 6,886,187 99% Shade Factor

IN ACCORDANCE WITH ASTM-F 1346-1991

ALL OF OUR SOLID COVERS OR MESH COVERS

... gives your pool a blanket of protection and the peace of mind that you have one of the Safest Pool Covers Available. Both the Aqua-BrellaTM Mesh and Solid Safety Pool Covers offer you the features listed below.
